# CALIFORNIA COMMUNITY SCHOOLS PARTNERSHIP PROGRAM: IMPLEMENTATION PLAN TEMPLATE

## CA CS Framework Overview

A community school is any school serving pre-Kindergarten through high school students through a “whole-child” approach, with an integrated focus on academics, health and social services, youth and community development, and community engagement. It is an equity-driven and assets-building school transformation program.

Adopted in 2022, the CA CS Framework identifies 4 Pillars of Community Schools, Key Conditions for Learning, Cornerstone Commitments, and Proven Practices as follows:

**Pillars of Community Schools:** Integrated Student Supports; Family and Community Engagement; Collaborative Leadership and Practices for Educators and Administrators and; Extended Learning Time and Opportunities

**Key Conditions for Learning in a Community School:** Supportive environmental conditions that foster strong relationships and community; Productive instructional strategies that support motivation, competence, and self-directed learning; Social and emotional learning (SEL) that fosters skills, habits, and mindsets that enable academic progress, efficacy, and productive behavior, and; System of supports that enable healthy development, respond to student needs, and address learning barriers.

**Cornerstone Commitments of Community Schools:** A commitment to assets-driven and strength-based practice; A commitment to racially just and restorative school climates; A commitment to powerful, culturally proficient and relevant instruction; and a commitment to shared decision making and participatory practices.

**Proven Practices of Community Schools:** Community Asset Mapping and Gap Analysis; A Community School Coordinator; Site-Based and LEA-Based Advisory Councils, and Integrating and Aligning with Other Relevant Programs.

## Capacity-Building Strategies Overview

The S-TAC has launched the Capacity-Building Strategies: A Developmental Rubric to serve as a road map for both LEAs and school sites and is meant to enhance the adoption, implementation and sustainability of community schools. The Capacity-Building Strategies include a focus on:

1. Shared understanding and Commitment
2. Collective Priorities: Setting Goals and Taking Action
3. Collaborative Leadership
4. Coherence: Policy and Initiative Alignment
5. Staffing and Sustainability
6. Strategic Community Partnerships
7. Professional Learning
8. Centering Community-based Curriculum and Pedagogy
9. Progress Monitoring and Possibility Thinking

# CCSPP: IMPLEMENTATION PLAN

## School Site Contact Information

Mission View Public Charter School  
Sharon Smyth, [ssmyth@assurancelearning.org](mailto:ssmyth@assurancelearning.org)  
661-483-4516

## Strategies, Priorities and Goals

Describe the main process goals and action steps for the school site's community schools initiative. Add lines as needed. Use the phase-specific activities outlined in the Developmental Rubric as a guide.

**Strategy 1: Shared Understanding and Commitment** LEAs and schools raise awareness of community schools throughout the community, developing a shared understanding of the community schools approach that is centered on establishing racially just, relationship-centered schools. Schools and LEAs answer the question, "why a community school for my school/district?"

### Shared Understanding and Commitment Built Around the Overarching Values

After engaging interest-holders to answer the question, "why a community school for my school?", share your response to that question in the box below. In your response, be sure to indicate how your site's understanding of community schools reflects its commitment to the CA CS Framework through the Overarching Values (Overarching Values can be accessed [here](#)):

1. Racially-just, relationship-centered spaces
2. Shared power
3. Classroom-community connections
4. A focus on continuous improvement

Describe the developmental plans for ensuring these values are reflected in your community schools work:

Mission View Public Charter School's (MVPC) shared understanding of and commitment to the CA Community Schools Framework, and the Overarching Values was evident throughout the two years of planning with all our education partners and in the development of the goals for the CCSPP Project and the goals for LCAP. Since MVPC is a non-profit public benefit corporation that offers an independent charter school designed for 'At-Promise' high school students who were not successful in traditional high schools, the values of being racially-just, relationship-centered, social-emotionally safe, with strong classroom-community connections are the foundation of our programs. Most MVPC students come from dysfunctional environments where there has been significant trauma. Typically, incoming students have very low trust with others and don't have resources or supportive mentors focused on helping the student be successful. The MVPC community is committed to every student's success and rebuilding trust between the students and

adults. It is a flexible, personalized education program that, with becoming a community school, provides a pathway to a high school diploma and a personalized life plan beyond high school for career success.

Within this Implementation Plan, the CA CS Framework awareness, training, and commitment will include the Four Pillars of Community Schools, the Four Key Conditions for Learning, the Four Cornerstone Commitments, and the Four Proven Practices. The nine capacity-building strategies below will provide more detail for implementation in each section.

Shared power with all of our community Education Partners, staff, students, and parents is vital for our becoming a community school and continuously improving. Each person brings a unique perspective and improvement ideas that result in the best community school program and student success.

The CCSPP planning meetings over the past 18 months renewed our shared look at MVPC students and current program (including the use of improvement science strategies and data analysis). We asked, "What can becoming a community school do to strengthen the values and meet the identified needs of students?" During the process, our LCAP goals were refined, and our CCSPP goals and actions were developed:

#### MVPC CCSPP Goals:

1. Ensure equitable access to culturally appropriate, integrated student support services by improving coordination and delivery of school and community resources for students and their families.
2. Build the capacity of families and community members to support Mission View students' academic success, attendance, and positive youth development by providing parent education and connecting families to available community resources.
3. Build the capacity of teachers, staff, administrators, parents, and community partners to foster collaborative leadership in addressing the unique academic, behavioral, and developmental needs of Mission View students.
4. Partner with community-based agencies to enhance and expand extended learning programming to provide students with new, relevant academic and enrichment learning.

#### MVPC LCAP Goals:

1. Increase academic progress.
2. Students will gain skills for college and career readiness.
3. Increase student retention.
4. Increase educational partner engagement.
5. Increase resiliency.

MVPC is committed to ensuring all students progress toward academic proficiency by providing

culturally relevant, high-quality, differentiated instruction and academic and social-emotional support. Student mental and physical health needs are continually assessed, and support is provided to optimize student learning focus.

MVPC's two learning centers are chartered through the William S. Hart Union School District and have two locations in Santa Clarita Valley.

MVPC's current School Steering Committee (SSC) will continue to serve in a position to lead the CCSPP Implementation Project. They will oversee the community school program, partnerships, and strategies at the school sites. This will include ongoing assessment of the equitable distribution of the Multiple Tiered System of Support (MTSS), mental health, and opportunities to build lasting relationships with our education partners and community partner resources.

The SSC will work with the English Learner Advisory Committee (ELAC) and Parent Advisory Committee (PAC) to assess the degree to which their school site embodies the CA CS Framework and the Overarching Values. All of these committees will be refreshed or retrained with the CA Community Schools Framework and other guiding documents in the first quarter of the 2024-25 school year to be sure any new members have a full understanding and can participate as collaborative decision-makers. Next, a professional development plan will be developed to improve asset-driven, racially-just, relationship-centered spaces with restorative practices, culturally responsive instruction, shared decision-making, and participatory practices. In addition, the SSC will coordinate surveys and lead discussions regarding ongoing unmet student needs. The parent councils and school leaders will incorporate information about the CCSPP initiative into school-wide events, print and digital materials, internal and external communications, and site-level education partners' engagement opportunities to build shared understanding and commitment to the CA CS Framework. The SSC will work with the MVPC new employee onboarding team to incorporate training on the CA CS Framework and the Overarching Values.

## **Strategy 2: Collective Priorities: Setting Goals and Taking Action (The Needs and Assets Assessment )**

When interest-holders come together to identify collective priorities (through a needs and assets assessment), it fosters shared focus on those areas deemed most critical by local communities, influences the impact of the strategy, and helps build momentum to sustain efforts over time.

**Part A:** As part of the planning process, you have gone through an initial process of understanding needs and assets. As you initiate the implementation grant process and obtain site-level resources, please reflect on how you will go deeper in this needs and asset assessment process to engage the entire community in identifying their top community school priorities and vision. Please reflect on how you will engage different groups (administrators, certificated staff, classified staff, students, family members, community members and community partners) and identify the processes (e.g., surveys, one-on-one interviews, focus groups, visioning exercises, meetings/forums, etc.) you will use to engage them. Describe how you will engage historically marginalized student and family groups.

The Mission View SSC coordinated with relevant staff and the entire community to conduct a multi step needs assessment process to assess the needs of students, families, and the school communities to map community resources and identify service gaps. The SSC compiled student, school, and community data from internal and publicly-available reports including the US Census Bureau, CDE DataQuest, School Accountability Report Cards (SARCs), California School Dashboard, the Learn 4 Life Annual Student, Parent, Staff Survey, a community needs assessment, and the LCAP.

Our Community Programs Manager and Community Liaisons created a survey to assess community needs. Topics included a determination of what they felt were the top three issues facing their community, as well as what set of community resources they would like to be able to access. Examples of these resources include healthcare, vision, dental, mental health, literacy, immigration, substance abuse prevention, housing, legal consult and other forms of assistance. These surveys were conducted at a series of school and community events with heavy parent and community partner participation.

The SSC reviewed the compiled data, including the list of identified student needs and resources, and then asked focused questions to look for root causes. A discussion was held to identify what resources and services could be provided to students through existing state and federal funding or community partners, then a resource and service gap list was generated. The group brainstormed what prospective partners or additional funding resources might fill the gaps for identified needs and then what the CCSPP could provide in resources to meet the remaining needs. This process leveraged existing partners and resources.

The Site Steering Committee met to analyze all the survey results and data gathered from all the sources listed above and create a report highlighting key findings from the asset mapping and needs/gap analysis. Additionally, the report detailed how the CCSPP resources could be allocated to fill the remaining unmet student needs.

Finally, the Site Steering Committee (SSC) met with the staff, parents, students, and community education partners to share the report and get feedback on the proposed CCSPP project, including the alignment of the vision, goals, actions, and expected outcomes with the CA CS Framework and Overarching Values.

**Part B:** As sites complete the needs and asset assessment process, they identify collective priorities that form the initial focus of their community school implementation efforts. Given your preliminary needs and asset assessment, please share three draft collective priorities that you anticipate arising as you achieve deeper engagement with students, staff, families and community members.

One of the priorities should align with a support listed in the [Whole Child and Family Supports](#)

[Inventory](#) (e.g., integrated student supports, authentic family and community engagement, collaborative leadership, extended learning time and opportunities, positive and restorative school climate, community-based curriculum and pedagogy, etc.). The collective priorities you list below may be the same goals you will ultimately report in the APR, or they may change throughout the course of your first year as you continually engage students, staff, families and school members.

Draft Collective Priority	Outcome/Indicators you aim to improve
Equitable access to integrated student support and resources for academic success	Improved coordinated support for students to increase student success. Increased the number of students meeting standards in ELA and mathematics as measured by CAASPP. Increase the percent of students showing growth on ELA and mathematics as measured by NWEA. Increase the students completing 2.0 credits in each learning period and reduce chronic absenteeism.
Expand extended learning programs with new academic courses, career skills concurrent enrollment with community college, and other enrichment opportunities.	Increase students' success in concurrent enrollment in community college courses Increase student-relevant academic courses and activities Increase additional enrichment opportunities in college and career.
Increase the number of students and parents connected to the community resources.	Increase collaboration and the number of community partners and resources available to students and families. Increase the number of students with all needs met as measured through surveys and focus groups.
Build the capacity of all MVPC staff, administrators, students, parents, and community partners to strengthen engagement and collaborative decision-making.	Increase the number of parents or guardians engaging with MVPC through surveys, focus groups, parent advisory council, and family engagement events. Increase the number of community partners participating in surveys, collaborative CCSPP meetings, and other engagement events.

### Strategy 3: Collaborative Leadership

Shared decision-making ensures all interest-holders have a voice in the transformation process and fosters shared power of the strategy. Collaborative leadership improves coordination of services, fosters supportive relationships, results in decisions that are widely accepted and implemented, and supports sustainability of the effort.

At the system level, LEAs establish a system-level steering committee/advisory council to conduct

exploration activities and to provide crucial guidance to school-level implementers. At the site level, schools map and assess the current shared governance structures (where and how decisions are made) in their building and community, identifying all existing school-site and local neighborhood teams, networks, or working groups to understand their purpose and composition. Schools then launch or revise site-level shared leadership structure(s) to facilitate democratic participation and decision-making among students, staff, families, and community members.

Describe your goals for strengthening collaborative leadership.

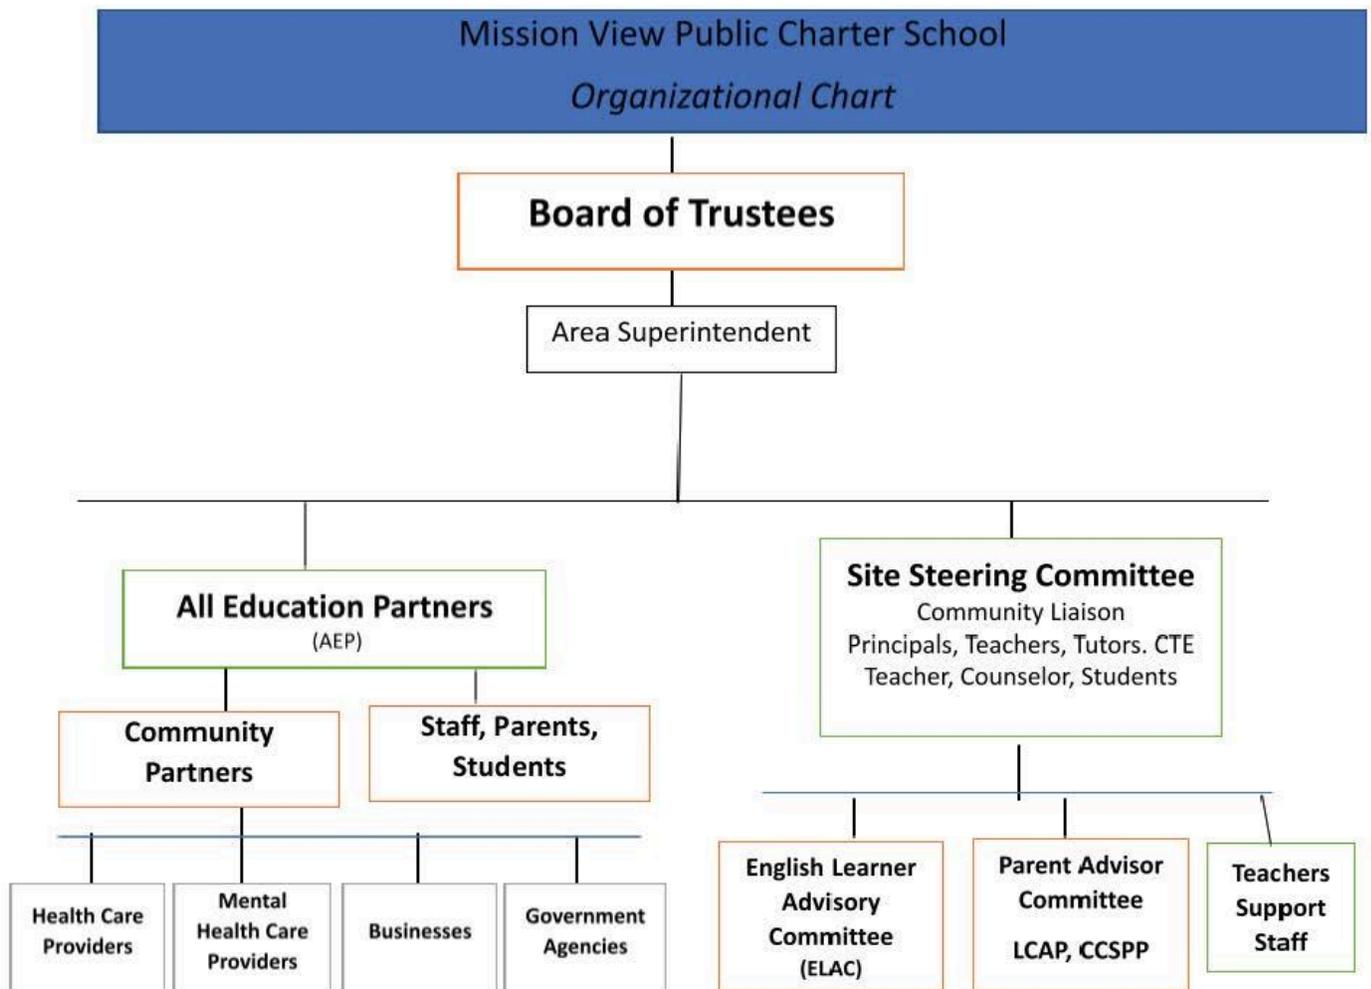

### Site Level Goals and Measures of Progress

Goal	Action Steps
<p>A CCSPP <b>All Education Partners</b> (Community AEP) committee of parents, students, teachers, classified staff (finance, operations, tutors), administrators, and community education partners will meet 4 times a year to make the major decisions for the CCSPP project. Progress will be measured by quarterly agendas, sign-in sheets, and minutes</p>	<ol style="list-style-type: none"> <li>1. Create a CCSPP All Education Partners Committee (Community AEP), as described in the goal, to meet quarterly to review the implementation actions, including analysis of progress data, and make ongoing decisions.               <ol style="list-style-type: none"> <li>a. Progress measured by the AEP committee created in the first quarter of year</li> </ol> </li> <li>2. Create <b>Community AEP</b> agendas by asking members for agenda items (a week ahead of the meeting) and send out agendas so members can review what will be discussed and gather information to make decisions.               <ol style="list-style-type: none"> <li>a. Progress is measured by quarterly agendas, sign-in sheets, and minutes</li> </ol> </li> <li>3. Solicit qualitative feedback bi-annually from all key education partners, including students, parents, families, teachers and staff, and community partners to collect information useful for community school planning and continuous quality improvement.               <ol style="list-style-type: none"> <li>a. Progress measured by bi-annual surveys and Annual CCSPP Evaluation Report</li> <li>b. Revised implementation plan developed from data analysis and updated asset mapping</li> </ol> </li> </ol>

<p>The Mission View CCSPP Site Steering Committee, composed of students, parents, teachers, staff, administrators, counselors, social workers, and operations support will meet monthly to support implementation of the CCSPP Project.</p>	<ol style="list-style-type: none"><li>1. The CCSPP Site Steering Committee (SSC) will meet monthly to review the implementation plan, develop an ongoing timeline, and be sure all the action steps are taking place and struggling students are continually identified and supported as detailed in the CCSPP plan.</li><li>2. Progress is monitored by monthly agendas, sign-in sheets, and minutes. Also, data collected shows student progress towards credit completion, meeting graduation requirements, college and career participation and physical and mental well-being.</li><li>3. Incorporate CCSPP implementation reports (including data collected to determine progress), into all key engagement opportunities, including meetings of ELAC, LCAP, and Parent Advisory Council to gather feedback.<ol style="list-style-type: none"><li>a. Progress measured by agendas, sign-in sheets, and minutes</li></ol></li></ol>
<p>Provide integrated student support services</p>	<ol style="list-style-type: none"><li>1. Utilize the CCSPP Site Steering Committee to review support services for students struggling with academic progress or physical or mental health issues and develop an improved integrated support plan.<ol style="list-style-type: none"><li>a. Progress is measured by meeting dates, student lists, individualized learning plan progress, and student support plans</li></ol></li></ol>

Describe the system of shared governance and site-level leadership structure at your community school (this could be a visual like an organizational chart of other graphic):

The system of collaborative leadership is represented in the following organizational chart. The LCAP/Parent Advisory Council (PAC) will assume the role of a CCSP Advisory Council to provide guidance to school leadership and conduct ongoing needs assessment, CCSP implementation activities, and program evaluation.

## Strategy 4: Coherence: Policy and Initiative Alignment

Establishing coherence and alignment across policies and initiatives is critical in the success of the community school strategy. Coherence helps clarify purpose, ensures efficient use of resources, avoids conflicting policies, creates synergy and the amplification of impact, and promotes sustainability.

A coherent and comprehensive plan/strategy for community schools “de-silos” all parallel LEA and school-level initiatives. Schools fully integrate the community school strategy with all existing school-wide strategic plan(s)/ improvement plan(s) such as the LCAP and SPSA. The community school implementation plan and school improvement plan become one cohesive plan. Describe your goals and action steps for establishing policy and initiative alignment.

### Site Level Goals and Measures of Progress

Goals	Action Steps
<p>Incorporate the community school Needs Assessment and Asset Mapping/Gap Analysis and Implementation Plan into existing school strategic plans</p>	<ol style="list-style-type: none"> <li>1. Parent Advisory Council (PAC) conducts an annual review of Needs Assessment and Asset Mapping/Gap Analysis and Implementation Plan (annually)               <ol style="list-style-type: none"> <li>a. Progress monitored by PAC agendas, sign-in sheets, and minutes at quarterly meetings</li> <li>b. Revised Needs Assessment and Asset Mapping/ Gap Analysis and Implementation Plan (annually)</li> <li>c. If needed, budget plan revision annually</li> </ol> </li> <li>2. Incorporate review and update of the community schools Implementation Plan into the LCAP planning and Needs Assessment and Asset Mapping revision process (annually) /Gap Analysis and Implementation Plan               <ol style="list-style-type: none"> <li>a. Progress monitored by LCAP Goals, Actions, and into existing school strategic plans budgeted expenditures show explicit alignment with the CCSPP.</li> </ol> </li> <li>3. Mission View has a Comprehensive School Improvement (CSI), with a focus on additional tutoring support for students. The Site Steering Committee will list and consider on the monthly agendas any other initiatives or funding, to keep the integration of services and funding when making decisions and planning</li> </ol>

	service delivery to students.
--	-------------------------------

## Strategy 5: Staffing and Sustainability

A focus on staffing and sustainability ensures that the necessary human and financial resources are available to maintain the strategy over time, and to sustain continuous progress and improvement.

Describe your goals and action steps for ensuring that: staffing serves the target student population, LEAs recruit and hire diverse, multilingual staff to support site-level work, including an. Schools hire site-level coordinators. Both sites and systems develop sustainability plans to ensure core staffing is sustained through long-term funding.

### Site Level Goals and Measures of Progress

Goals	Action Steps
<p>Community Liaison (CL) to coordinate site activities (will work with SSC). Social Workers, Counselors, and Community Liaisons (System Of Support (SOS) Team) will maintain ongoing communication with families to improve the academic performance, attendance, and health and well-being of students (Supports LCAP Goals 1 and 3)</p>	<ol style="list-style-type: none"> <li>1. Community Liaison hired during the planning grant will continue in that position.</li> <li>2. Develop student lists from the 23-24 school year for students and families that need additional support to be successful. (July 2024)</li> <li>3. Begin ongoing communication with students and families to determine how to deliver additional support, such as academic (tutoring time), mental health, transportation, and review the student's individual learning plan with the lead teacher and adjust as necessary.               <ol style="list-style-type: none"> <li>a. Progress measured by community liaison to be reviewed with site leadership team</li> <li>b. Calendar of CL family communication times</li> <li>c. Monitor progress of identified students in academics, attending mental health appts., credits completed by learning period. (Usually every 4 weeks.)</li> </ol> </li> </ol>

<p>Utilize additional academic tutors identified in our Comprehensive School Improvement (CSI) plan to work with identified students.</p>	<ol style="list-style-type: none"> <li>1. Assign students in need of additional tutoring time.             <ol style="list-style-type: none"> <li>a. Progress monitored by CL regarding students attending tutoring support</li> <li>b. Credits completed by learning period</li> </ol> </li> </ol>
---	---

<b>Key Staff/Personnel</b>	<b>Roles/Responsibilities</b>
<p>Community Liaison</p>	<p>Oversees all sites CCSPP implementation and ongoing progress monitoring and data collection and analysis.</p> <p>Continues to develop new community partner relationships for career skills development, internships, certification programs, SEL and on-site career training.</p> <p>Conducts home visits and maintains ongoing communication with families to help students improve academic achievement, and attendance, ensures mental health or substance abuse appointments, and connects students with additional college and career opportunities.</p> <p>Schedules school-wide presentations for students with administrators on developing a life-plan,</p>

Mission View Public Charter School  
CCSPP: Implementation Plan Template

	including college and career goals.
Regional Director of Educational Support Services (in-kind support .10 FTE)	Coordinates training for SOS team on CCSPP implementation plan. Participates in monthly steering committee meetings to determine integrated student services.
Principal, MVPC (in-kind support .10 FTE)	Provides site-level community school leadership and support; works with the Community School Program Manager, Community Liaison, Parent Advisory Council, and CCSPP Steering Committee to prospect, cultivate, and secure partnerships and resources.
State and Federal Programs Coordinator (in-kind support .10)	Oversees budget and implementation as member of SSC.
Community Programs Manager (in-kind support .20)	Oversees all sites CCSPP implementation and ongoing progress monitoring and data collection and analysis.  Continues to develop new community partner relationships for career skills development, internships, certification programs, SEL and on-site career training.
Academic Counselor, MVPC (in-kind support .10 FTE)	Collaborates with students, parents and staff to create individualized learning plans, life plans and participates in monthly steering committee meetings.
School Social Worker, MVPC (in-kind support .10 FTE)	Collaborates with students, parents and staff to provide SEL and participates in monthly steering committee meetings.
Curriculum & Instruction Coordinator (in-kind support .10 FTE)	Collaborates/serves in SSC, coordinates CCSPP related trainings and PD along with CCSPP curriculum and instructional enhancements.
Grant Evaluator, Educational Research Corporation (External)	Attends monthly steering committee meetings, gathers data for ongoing evaluation of implementation, and assists in preparing the annual report.

Describe the plans or steps you are considering to build sustainability beyond the life of your

implementation grant:

During the first year of the CCSPP project, the **Mission View Site Steering Committee** and the **CCSPP All Education Partners (AEP)** committee will work with the Parent Advisory Council to develop LEA sustainability plans to ensure core staffing and new CCSPP initiatives are sustained through long-term funding. The Site Steering Committee will incorporate best practices for Community School sustainability as informed by the California Department of Education, the S-TAC (State Assistance Center), and the R-TAC, LACOE. The primary focus of the sustainability plan will be demonstrating the value of community schools, both in terms of economic cost-benefit analysis and their impact on student learning. The **AEP** and the Site Steering Committee will work with an external evaluator to conduct formative and summative evaluations that include quantitative and qualitative assessments (along with the CDE-required CCSPP evaluation components) to determine (1) the school's success in implementing the community schools model with fidelity and (2) the CCSPP Project's overall impact and success in meeting target performance measures (e.g., student, school, and community outcomes).

The Site Steering Committee will present the results of ongoing project reflection and evaluation to the **AEP** and the Mission View Board of Trustees to quantify the CCSPP's return on investment resulting from improved student success, teachers and principal stability, and job satisfaction, the ability to attract a diverse pool of employees increases in the average daily attendance (ADA), and the contribution to supporting community and family needs. In addition, the sustainability plan will identify diverse sources of ongoing community school funding, including in-kind donations of services from community partners and government agencies, the LEA MediCal Billing Option Program, the School-Based Medi-Cal Administrative Activities Program, the federal Early and Periodic Screening, Diagnosis, and Treatment Program offered to our families and by our partners and other state and regional grant programs. Presentations will also be made to foundations and local government entities, stating the economic contribution that Mission View graduates make to our community. It is well-researched that adults with a high school diploma and job skill training earn significantly more than dropouts, so sustaining our community school program helps the local economy grow. It is an attractive funding destination for economic development.

## **Strategy 6: Strategic Community Partnerships**

Developing strategic community partnerships allows schools and LEAs to build a stronger network of support and culturally responsive programming and resources for students, educators and families, and to foster a more inclusive, democratic and supportive learning environment that benefits everyone in the community.

In alignment with strategies developed in response to the deep needs and asset assessment, schools identify and establish school-community partnerships who share a holistic focus on students, families and the community. This section should demonstrate your goals and action steps to ensure community partners are actively involved in the planning, development, and continuous improvement of the community school.

## Site Level Goals and Measures of Progress

Goals	Action Steps
<p>Enhance relationships with existing partnerships and prospect new partnerships to better meet site-specific needs for students and families community-based services and activities.</p> <p>(Supports LCAP Goals 2 and 4)</p>	<ol style="list-style-type: none"> <li>1. Review and update the CCSPP Partnership List to identify any new partnerships (bi-annually). Targeted entities will be those who can provide mental health support and substance abuse counseling for students.               <ol style="list-style-type: none"> <li>a. Progress measured by number of students and families actively participating in provided supports.</li> </ol> </li> <li>2. Develop a site-specific Partnership Matrix (by the end of project year one).               <ol style="list-style-type: none"> <li>a. Progress monitored by the expansion of partner lists.</li> </ol> </li> <li>3. Formalize partnerships with a written agreement.               <ol style="list-style-type: none"> <li>a. Progress is monitored by a signed MOU or letter of agreement from partners outlining the roles and responsibilities of both parties, including services to be provided.</li> </ol> </li> <li>4. Engage community partners in the All Education Partners quarterly meetings.               <ol style="list-style-type: none"> <li>a. Progress is monitored by the meeting agendas, sign-in sheets, and meeting minutes.</li> </ol> </li> </ol>

Describe the partnerships you have established or plan to establish, and how your school's partnerships will be responsive to the vision and priorities of students, staff, families and community members:

Throughout the community school planning process, the Site Steering Committee engaged with local leaders and community education partners from each school site to conduct a community asset mapping and needs/gap analysis. This included completing an inventory of existing community-based service providers operating within the charter attendance area to create an Education Partners matrix, which lists the services the partner can provide and in which areas.

Mission View hosted an All Education Partners meeting to explain the purpose of CA Community Schools, including providing copies of the CA Community Schools Framework, sharing the initial identified service gaps that exist, and leveraging each partner's professional expertise and network to identify prospective partners that might contribute to future community schools efforts. The list below includes key existing community-based service providers along with several prospective partners that Mission View plans to establish a relationship with to support the CCSPP Project.

Mission View Community Program Manager was also able to network with other districts in our area that are also working on becoming a community school at the Regional Technical Assistance Center meetings at the LA County Office of Education.

### **Existing Community Partners**

**Luminarias Institute** Provides mental health services to students and their families. Behavioral Health Clinicians are assigned to our school and work closely with our Student Services Support team to ensure continuity of services. They provide services regardless of medical coverage and at no cost to the student or family.

**El Dorado Charter SELPA.** The Charter SELPA has provided tremendous technical assistance with struggling special education students, including instructional strategies, parent communication assistance, and, when needed, student residential placement.

**Department of Rehabilitation (DOR)** DOR provides opportunities for career exploration and preparation through DOR Student Services and Vocational rehabilitation services. These services are designed to maximize student success as they transition from high school to postsecondary education, employment, independence and economic self-sufficiency.

**Goodwill Industries of Southern California** Provides workforce readiness education and job/internship placement that are aligned with the local workforce system goals for youth.

**Southern California Medical Center (SCMC)** Provides a variety of healthcare services including primary care, pediatric services, dental, behavioral health and vision. They operate a mobile unit and currently provide vision exams (no cost) and immunization clinics to our students and families.

**Child & Family Center** Provides Mental Health, Drug & Alcohol Treatment and Domestic Violence services to our students and families.

**West Hills Lemoore Community College** is our partner in concurrent online classes supporting our CTE Dual Enrollment Pathways. Our students take a variety of classes such as health, art, child development, business, communication, and college success.

**SCV Pregnancy Center** Provide support to our Pregnant and Parenting teens with prenatal care, parenting classes, child development classes, and support groups. They also provide a variety of educational classes for all teens including life skills.

**Fostering Youth Independence (FYI)** supporting youth reaching adulthood who are aging out of the foster care system. Providing education with life skills, college and career planning as well as

assisting with housing, employment, and goal setting.

**Developing Community Partners**

**The National Council on Alcoholism and Drug Dependence, Inc. ( NCAAD)** provides a variety of support services and education related to substance abuse. They provide educational workshops for both students and parents.

**Aspire Counseling Services** provide Substance Use Disorder (SUD) treatment with multiple levels of care (PHP and IOP), offering a wide range of counseling sessions. They also have a Behavioral health treatment program designed to provide short-term stabilization.

The Community Program Manager and Community Liaison have been meeting with additional partners during the planning grant to develop new relationships or re-engage previous partners to benefit students, families, and community members. This will include updating the site-specific Partnership list that addresses the local needs for wraparound services provided to students and families.

**Strategy 7: Professional Learning**

Professional learning enhances collaboration and coordination and provides opportunities for interest-holders to develop shared understanding, build relationships, and coordinate their efforts to better support student success.

Below, describe your goals and action steps for professional learning opportunities specific to the community school strategy. Consider role-specific professional learning supports that are offered to administrators, educators, classified staff, families, and other role groups as necessary. Also consider how schools identify the supports and professional learning needed to support the community schools initiative, including learning focused on shared leadership and a reimagining of teaching and learning to be collaborative, relationship-centered, culturally-affirming/relevant, asset-based, democratic, and community-based.

(Table next page due to set formatting)

**Site Level Goals and Measures of Progress**

Goals	Action Steps
Build the capacity of the All Education Partners Committee, Parents Advisory Council, and all	1. The Community Liaison in collaboration with our R-TAC, will lead training as described in

school site personnel to understand the CA CS Framework, community-based learning, Overarching Values, and Implementation Science to foster collaborative leadership in addressing the unique academic, behavioral, and developmental needs of MVPC students. (Supports all LCAP Goals and CSI goals.)

the goal.

- a. Progress measured by professional development agendas, participant rosters, sign-in sheets, and feedback surveys at the end of each session of training
2. Training and coaching are embedded into existing collaborative planning infrastructure (e.g., Professional Build the capacity of the All Education Learning Communities, Student Study Teams). Partners Committee, Parents Advisory (ongoing) Council, and all school site personnel
  - a. Progress is monitored by PLC agendas, logs, and to understand the CA CS Framework, calendars. (ongoing)
3. FCSS will provide additional PD in Implementation Science to foster
  - a. Culturally-Relevant instruction collaborative leadership in addressing
  - b. Social-emotional learning strategies the uniques academic, behavioral, and
  - c. Subject-specific instruction
  - d. Implementation Science
  - e. Restorative Practices
  - f. Progress measured by professional development feedback surveys at the end of each session of training.

(Supports all LCAP Goals and CSI agendas, participant rosters, sign-in sheets, and goal.)

4. Counselors will participate in ASCA-provided professional development which among many things empowers counselors and administrators to use data to improve efficiency and effectiveness, leading to improved outcomes for students.
  - a. Progress measured by professional development agendas, participant rosters, sign-in sheets, and feedback surveys at the end of each session of training.

All staff of MVPC will be trained in Speed of Trust

1. Train all employees in Speed of Trust 13

and Being a Warm Demander.	<p>trust behaviors.</p> <ol style="list-style-type: none"> <li>a. Progress is measured by professional development agendas, participant rosters, sign-in sheets, and feedback surveys at the end of each session of training.</li> </ol>

## Strategy 8: Centering Community-Based Curriculum and Pedagogy

Community-based curriculum and pedagogy builds on the rich, diverse cultural, linguistic backgrounds of students and families. It can increase students' engagement in their learning by connecting to real-life experiences and issues that are relevant to students' lives and communities, improving their sense of ownership and agency.

Describe your goals and action steps to assist educators in learning the theoretical roots and practical elements of community-based learning.

### Site Level Goals and Measures of Progress

Goals	Action Steps
<p>Increase educator proficiency in community-based learning (CBL).</p>	<ol style="list-style-type: none"> <li>1. Train all staff in the theoretical roots and practical elements of community-based learning.               <ol style="list-style-type: none"> <li>a. Progress is monitored by training logs, sign-in sheets, and surveys of new learning when training is complete.</li> </ol> </li> <li>2. Teachers who participate in CBL professional learning share best practices for incorporating CBL into the curriculum during grade-level PLCs.               <ol style="list-style-type: none"> <li>a. Progress is measured by agendas, sign-in sheets, and minutes from PLCs.</li> </ol> </li> </ol>

Develop a student portfolios that students share with a staff and parents during their parent-teacher conference.

1. In the first year of the CCSPP Implementation, the Site Steering Committee will develop criteria for a parent-teacher conference portfolio, present to the AEP for feedback, finalize, and train staff on the criteria for the portfolio.
  - a. Progress will be measured by the completion of a portfolio and agendas of staff meetings where the teachers were trained on the criteria required.
2. In year two and beyond, students will assemble parent-teacher conference portfolios. The student will share the portfolio with staff and community members.
  - a. Progress will be measured by the schedule of students' presentations and feedback by the staff and teachers' feedback sheets.

## **Strategy 9: Progress Monitoring and Possibility Thinking**

When interest-holders come together to review data on student outcomes and program effectiveness, they can ensure that the strategy is responsive to the assets and needs of students and families and adapt practices to better support success. Progress monitoring and possibility thinking allows for the celebration of successes, development of new strategies, structures and practices, and builds stronger relationships and partnerships among interest-holders.

Describe how your site, with educational partners, will explore the development of an evaluation plan for the community schools initiative, rooted in local data and measures that allows for diverse community-based definitions of success. Describe how you are developing metrics to gauge success and to guide their work. Identify those potential outcomes/indicators.

### **Site Level Goals and Measures of Progress**

Goals	Action Steps	Outcome/Indicators
<p>Develop and refine the CCSPP Project evaluation plan that enables the All Education Partners Committee (AEP) to engage in continuous quality improvement</p>	<ol style="list-style-type: none"> <li>1. MVPC SSC will work with the evaluator to create an evaluation plan that includes mechanisms for accurate and timely data collection, management, analysis, and reporting. (Complete Year 1 by December, AEP Committee will review and provide feedback to finalize the CCSPP Evaluation Plan.</li>   <li>2. The evaluation plan will include all of the CDE required, and S-TAC recommended data, surveys, and focus group feedback, PLUS all of the Measures of Progress listed in the implementation plan. Overall school data disaggregated by student groups (CDE definition) and grade level, including, but not limited to:               <ol style="list-style-type: none"> <li>a. Academic Achievement in ELA and mathematics</li> <li>b. Graduation Rates</li> <li>c. English learner</li> </ol> </li> </ol>	<ol style="list-style-type: none"> <li>1. Action Step 1               <ol style="list-style-type: none"> <li>a. Evaluation plan draft given to the AEP Committee by Quarter 1 meeting final plan for Year 1 will be finalized at Quarter 2 meeting.</li> <li>b. Baseline data presented to the AEP Committee by Quarter 3 of Year 1.</li> <li>c. Annual evaluation will be shared with the AEP, SSC, PAC, Board, and all school site staff, and feedback taken to improve will be solicited annually.</li> </ol> </li>   <li>2. Our R-TAC will review our evaluation plan to ensure all required data, surveys, and any other required or recommended data/information collection are included. (To be done in Year 1, draft in October, and final in December.)</li>   <li>3. Revised</li> </ol>

	<p>progress</p> <ul style="list-style-type: none"> <li>d. Job Skill participation</li> <li>e. Attendance</li> <li>f. Chronic Absenteeism</li> <li>g. Dropout Rate</li> <li>h. Suspension Rate</li> <li>i. Student surveys; mental health</li> <li>j. NWEA Achievement in ELA and math</li> <li>k. Parent Engagement</li> <li>l. Student connectedness to school</li> <li>m. Students and Families with unmet needs</li> <li>n. Student retention until graduated</li> <li>o. Community Partnerships</li> <li>p. Adherence to budget allocations</li> </ul> <p>3. The SSC will review ongoing data collection and management monthly to update the evaluation plan throughout the first year of the project and annually thereafter.</p> <p>4. Ongoing data collection, analysis, and evaluation will</p>	<p>Implementation Plan and Needs Assessment and Asset Mapping / Gap Analysis to be done Annually.</p> <p>4. Action Step 4</p> <ul style="list-style-type: none"> <li>a. Progress will be monitored by AEP and SSC agendas, sign-in sheets, and minutes. (AEP Quarterly and SSC monthly.)</li> <li>b. The Community Schools Evaluation Report will demonstrate ongoing reflection and improvement. (annually)</li> </ul>
--	--	---

	<p>inform the review and an update of Asset Mapping and Needs/Gap Analysis and the CCSPP Implementation Plan. (annually)</p> <p>5. The AEP Committee and SSC Committee will collaboratively review all data, the current year's implementation plan progress, and integrated service delivery. Updates to the plan, data collection and adjustments, the composition of the committees, and production of the annual presentation to the Board will be made.</p>
